Empower yourself & others

Eco-friendly

OUR HISTORY

The story of Wood Products Kenya Ltd began when 3 brothers had a vision to start a timber company in Kenya in the early 1900's. They formed the company called Hardial Singh & Bros which processed & traded timber. At its peak, it controlled a large market share of timber flooring & export timber products in East Africa.

As more family members joined the business, the company was rebranded as Wood Products Kenya Ltd. Today the company is still run by the members of the founding family and continues in its roots to provide the market with wood products.

OUR JOURNEY

Business incorporated as Hardial Singh & Bros

Registered standard mark for timber parquet flooring

Moved to Enterprise Road & expanded facility to 10,000 SQM

Started Batch 1 cabinetry plant comprising of CNC machine & edging machines

Planted a 10,000 tree forestry as part of our CSR activity towards Environmental Conservation

Implemented a large scale 50 kw solar power plant

Introduced a new line of imported Italian Kitchens with Lube

Wood Products Kenya Ltd has continuously developed its production & product range to meet the shifting dynamics of the market. Our manufacturing facility consists of over 30 individual machines with the highlights being state of the art automated lacquering & flat lamination machines. Our core products are **Doors, Flooring, Kitchens & Wardrobes** which we supply to public and private developers.

We provide products for all spectrums of the market from affordable housing projects to high end developments. Our products are made from sustainable sourced timber such as: Mahogany, Mvule & European Cypress.
