ABOUT PRONATURE

German innovation, made in Kenya, for natural living in East Africa.

ProNature is a South African producer of natural surface coatings and maintenance products, manufactured in Cape Town with decades of international paint chemistry experience. The range, designed by a German Paint Chemist, is for wood, stone, walls and everyday maintenance — using natural, bio-based and sustainable ingredients.

Natural Ingredients

Plant-based oils, waxes and carefully selected raw materials for healthier interiors and more sustainable projects.

For Professionals

Ideal for architects, designers, carpenters, shopfitters, hospitality projects, residential builds and timber specialists.

Easy Maintenance

Designed for practical upkeep, with no sanding prior to re-oiling in all maintenance applications.

WHY EAST AFRICA CHOOSES PRONATURE

Beautiful matte wood protection without the plastic look and feel.

UV protective	Water-repellent
For interior & exterior	Stain & Seal in One
Non-Slip	More than 60 colours
No streaks & overlaps	1-component system
Coverage up to 20–30 sqm/litre/coat	Breathable, non-toxic & biodegradable

From coastal homes and safari lodges to furniture, decking, boats, cladding, doors, windows and interior joinery, ProNature's penetrating oil-based systems preserve the natural character of every type of wood while adding practical protection.

PRODUCT RANGE

Natural finishes and care products for every timber project.

Select the right system for interior, exterior, hospitality, retail, residential or commercial applications.

Indoor Wood Sealer

For furniture, floors, joinery, doors, kitchens, decorative timber and everyday interior wood surfaces.

Outdoor Wood Sealer

For decks, cladding, pergolas, windows, doors, timber homes and exterior wood exposed to the elements.

Hardwax Oil

A plant oil and wax blend for interior wooden surfaces requiring a durable, elegant matte satin finish.

Wood Cleaner

For cleaning oiled and sealed timber without unnecessary harshness, ideal for maintenance routines.

Stone Sealants

Natural protection for selected stone and mineral surfaces in sustainable residential and commercial spaces.

Maintenance & Care

Practical after-care products to help projects stay beautiful for longer, indoors and outdoors.

01

Architectural Support

Assistance with product selection, colour direction and sampling for project specifications.

02

East Africa Climate Focus

Guidance for coastal humidity, high UV exposure, outdoor timber and hospitality environments.

03

Project Supply

Service for lodges, hotels, contractors, joinery workshops, furniture makers and homeowners.
